Caterpillar DE150 GC - C7.1 Diesel Power Generator

Caterpillar DE150 GC Diesel Generator

Product Overview

The **Caterpillar DE150 GC** diesel generator delivers dependable power for both *standby* and *prime* applications. Equipped with the **CAT C7.1 diesel engine**, this generator set ensures superior fuel efficiency, robust performance, and low operating costs. It is well-suited for *commercial facilities, industrial operations, and emergency backup applications*.

Key Specifications

- **Model:** Caterpillar DE150 GC
- **Prime Power:** 137 kVA / 110 kW
- **Standby Power:** 150 kVA / 120 kW
- **Engine Model:** CAT C7.1 Diesel Engine

- **Frequency:** 50 Hz
- **Voltage Range:** 380–415V (configurable)
- **Fuel Type:** Diesel
- **Cooling System:** Water-cooled
- **Emissions:** Compliant with international standards

Features & Benefits

Built with Caterpillar's renowned engineering, the DE150 GC provides reliable performance under all working conditions. Its efficient design reduces running costs and ensures long-term durability. Key advantages include:

- CAT C7.1 engine – fuel efficient and highly reliable
- Compact design ideal for both indoor and outdoor installation
- Low maintenance requirements for reduced downtime
- Proven performance for prime and standby use
- Backed by Caterpillar's global dealer and service network

Applications

The DE150 GC is widely used in **hospitals, offices, schools, industrial facilities, and data centers**. Its balance of power, efficiency, and durability makes it a versatile choice for reliable electricity supply in critical operations.
